KORTE® Concave mouldings & floor coating systems*

The ideal combination for perfect floor coating

KORTE® concave moulding
Types H30/30 to H150/40
→ Example: For external thermal insulation composite system

KORTE® concave moulding
Types H30/30 to H150/40
→ ‘Fillets’ for all standard applications

KORTE® concave moulding
Types H30/30 to H150/40
→ Example:
1. Tiled wall
2. Dry construction wall with adjustment screws

External thermal insulation composite system
→ Priming: StoSeal P 305
→ Adhesive: StoSeal F 355

Cretec floor coating systems*
→ KORTE® concave moulding (H50/25)
→ StoPox 452 EP + StoQuarz 0.2-0.7 mm (1 : 2.5)

Cretec floor coating systems*
→ KORTE® concave moulding (H50/50)
→ StoPox 452 EP + StoQuarz 0.2-0.7 mm (1 : 2.5)

Cretec floor coating systems*
→ KORTE® concave moulding (H70/50)
→ StoPox 452 EP + StoQuarz 0.2-0.7 mm (1 : 2.5)

Tiles or wall cladding
→ Priming: StoSeal P 305
→ Pointing: StoSeal F 355

Subject to change without prior notice

Pretreatment: Cleant pre-coating with StoDivers EV 100

* Floor coating systems from StoCretec
→ Thick film system
→ Water-based paint system
→ ‘Colorquarz’ system
→ One-day balcony coating
