

1 Concave Moulding made of polymer resin mortar (EP/UP)

Supply, install, glue and coat; for shear-resistant and non-shear-resistant connection.

Connection: Floor/wall
Component: Floor
 Surface: Horizontal **shear-resistant** connection
 Fastening: Gluing with 2-component epoxy resin adhesive (EP) material appropriate for material of the following floor coating.
Component: Wall
 Surface: Vertical **non-shear**-resistant connection
 Seal with 1-component polyurethane adhesive (PU) if applicable, form gap according to DIN 18540
 Brand:
 Type: Prefabricated CONCAVE MOULDING made of polymer resin mortar (EP/UP), install according to manufacturer's instructions.
 Dimensions: Fillets, legs of equal lengths, concave moulding height 50 mm, **width 50 mm**
 Brand: **KORTE type H50/50**
 or equivalent
Work: **Supply, install, glue and coat**
 Manufacturer: KORTE Bauteile GmbH, D-69121 Heidelberg

 Product offered:
 Metres EURO/m EURO

2 Concave Moulding made of polymer resin mortar (EP/UP)

Supply, install, glue and coat; for shear-resistant and non-shear-resistant connection, especially suitable for external thermal insulation composite systems (ETICS).

Connection: Floor/wall **ETICS**
Component: Floor
 Surface: Horizontal **shear-resistant** connection
 Fastening: Gluing with 2-component epoxy resin adhesive (EP) material appropriate for material of the following floor coating.
 Component: Wall, e.g. ETICS, facade
Surface: Vertical **non-shear-resistant** connection
 Seal with 1-component polyurethane adhesive (PU) if applicable, forming a gap in accordance with DIN 18540
 Brand:
 Type: Prefabricated CONCAVE MOULDING made of polymer resin mortar (EP/UP), install according to manufacturer's instructions.
 Dimensions: Concave moulding height 50 mm, **width 25 mm**
 Brand: **KORTE type H50/25**
 or equivalent
Work: **Supply, install, glue and coat**
 Manufacturer: KORTE Bauteile GmbH, D-69121 Heidelberg
